HERITAGE

We share your passion

In 1901, a young man with an entrepreneurial spirit and a great idea began manufacturing lanterns in Wichita, Kansas. Over 100 years later that same spirit, coupled with ingenuity is still what guides the company today.

A company that began with a flash of inspiration, The Coleman® brand has constantly innovated and evolved, changing the way that people have enjoyed the outdoors forever.

1900

1915

1930

1950s

1990s

2000s

W.C. Coleman establishes a lighting service in Kingfisher, Oklahoma. Mr. Coleman is soon servicing areas as far West as San Diego. Mr. Coleman buys the patent for the Efficient Lamp and soon sets out to design an even better product. At the same time, he moves to Wichita, Kansas, to expand his territory. Mr. Coleman begins to manufacture his own lamps.

The lantern proves so popular, the U.S. government declares it an "essential item" of World War I. Over 70,000 lanterns are distributed across the nation, allowing farmers and workers to extend their hours and produce items critical to the war effort. The factory in Wichita, which now employs over 200 people, goes from making 120 lamps in 1909 to 50,000 in 1920.

Coleman products appear in numerous Hollywood productions over the years, including the campstove's appearance with Rin Tin Tin in a 1933 feature film, "Night Cry." Celebrities, including the kids from "Our Gang," appear in marketing materials promoting Coleman Lanterns and stoves.

After the war, Coleman focuses even more on the outdoors. Americans become increasingly interested in recreation, traveling by car to see the country. Roadside parks and campsites crop up everywhere. The company manufactures its first cooler, which paves the way for many generations of coolers and jugs. Tents and sleeping bags join the growing line of outdoor recreation products.

By the end of the '80s, the Coleman Company is turning out 15 million products a year. Product expansion is robust with the addition of a comprehensive offering of camping furniture, a full line of accessories, butane-powered appliances, innovative tent designs and other soft goods.

Coleman celebrates its centennial birthday, introducing an updated version of its venerable Steel Belted® Cooler. The new line of industry-leading Coleman Xtreme® coolers are a hit with consumers, who appreciate the superior cold retention afforded by the thick insulation and tight-fit lids.

Each product is backed by an extensive, exhaustive and unparalleled testing programme to ensure that regardless of the conditions you face, you will have a product you can rely on time and time again, even if your life depends on it. Every component is put to the test and scrutinised long before it reaches the outdoors guaranteeing that it will cope with the extremes of nature. Our combination of laboratory and real world testing ensures that you can have confidence in every single component. Whether it's a roll test, a wind tunnel test or even 100% inflation test on all inflatable products, we'll go to unimaginable lengths to ensure that every element exceeds your expectations because when it comes to the outdoors, performance is everything...

PRODUCT EXCELLENCE INNOVATION & TESTING

Performance is everything...

First and foremost our passion is the outdoors and as a result, our inspiration for innovation is driven by the diversity of what the outdoors has to offer. Globally, we are committed to encouraging more people to go outside; it's the ethos behind our day-to-day thinking. Therefore, each year, we create a wealth of innovative products, introducing new categories that will inspire you to explore your outdoors. Whether you enjoy relaxing with friends and family outdoors or your personal passion is exploring the Arctic in freezing conditions, our product range will have the correct tools to support your individual adventure. A brand you can trust, it's a trust that's been earned over the last 100 years and it's a virtue that has stayed with Coleman through generations thanks to our commitment to delivering the highest quality products.

Biker™: Lightweight sleeping bag for active campers, hikers, and motorcyclists. Waterproof dry gear bag with valve for vacuum compression.

Instant tent™: A true innovation with a revolutionary design. The new Coleman® Instant Tent™ range relieves you of lengthy set-up times as you can pitch the tent in 1 minute. The secret is the spiderlike construction and pre-attached poles.

Event shelter: Now for smaller gardens: the popular & trusted Eventshelter in a smaller size: 3.65x 3.65m. As the big brother it comes with UVpro 50+ coating, strong 150 denier fabric and the well-known, typical design.

Inflatables testing: Every product is tested before leaving our factory. The airbeds are inflated for a couple of days in various conditions (cold / warm / humid) and therefore we can detect any problem.

Tents rain testing: All models are tested in heavy rain conditions. Therefore we bring innovative solutions such as Zipper Guard, Weather resistant fabric or leak free seams.

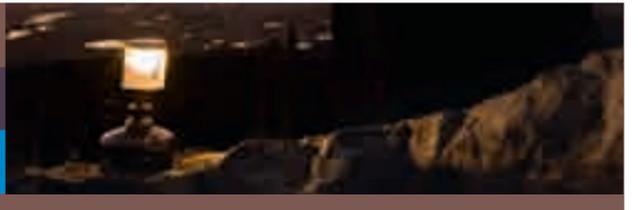

Tents wind testing: All models are tested for wind resistance up to 65 kph. An original facility has been set up at our global headquarters in Wichita (Kansas) to maximise the performance of our range.

The Coleman® brand is the outdoor company, and we strive to make it as simple as possible to go outside and enjoy all that nature has to offer. When we talk about waterproof features, trademarked ventilation methods, taped flysheets, just know that it's us going to great lengths to live up to the Coleman® name, so that you can hold up your end of the bargain: Let's Go Outside, with Coleman®. The Outdoor Company.

CAMPING TENTS

Explore your outdoors

At the Coleman® brand we combine high quality materials, global expertise and a quest for innovation to offer tents that focus on your comfort, convenience and performance, wherever your camping adventure takes you.

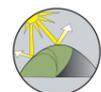

AirFlo™ Ventilation System

In climates where there is a high level of humidity condensation can occur. The optimum method of reducing condensation is improved ventilation. Coleman tent designers have developed a specific ventilation system for camping and adventure tents: The Airflo™ system. It allows cool air to enter through adjustable rain flaps or a zip-open groundsheet and warm air to leave through top or side vents, creating optimum airflow. The Airflo™ system is fully adjustable and features larger ventilation panels to cope with the volume of air in big camping and space efficient adventure tents.

Variflo™ System

Our Coleman Adventure tents are made for a tougher and more challenging environment. To be fully equipped for this, Coleman tent designers have engineered an upgrade ventilation solution: The Variflo™ System. The key vents in the tent are fitted with adjustable covers, so that the air flow can be actively controlled. This allows cool air to enter exactly as much as needed during the course of a whole day.

UV Pro

Offers fabric protection from UV rays and increased fabric longevity.

WeatherTec™ + System

To help you and your family stay dry during stormier trips the Coleman tent range features the WeatherTec™+ system. A system that has evolved and improved over time, it utilises the latest technology and includes cleverly designed tent features to ensure you are protected and dry on the campsite. This includes for instance, depending on the tent model: Strong waterproofing on the flysheet, rainskirts, taped seams, gussets, brow poles etc.

Easy Set Up System

Spend as little time as possible setting up your tent thanks to the Easy Set Up system. Every Coleman tent design is carefully considered at every stage to ensure that it is quick and easy to set-up at the campsite. All tents include features designed to take the hassle out of tent erection.

Area Management™ System

All big Coleman Camping tents are designed to resemble a home from home, giving your family the space, comfort and privacy for a more relaxing break. They feature living and sleeping areas with space suitable for storage. The new larger family tents have taken this concept one stage further with a unique 3 step internal design that includes a bedroom area, living room area and built-in shelter/ entrance area. The ultimate in family camping comfort and convenience.

In addition to the above, the larger Coleman family tents offer practical features including storage pockets, hooks for hanging lights and organisers and a thermo-electric cord vent.

Fire Retardant

The fire retardant characteristic of our material ensures that the fabric will not flare dangerously out of control and will self-extinguish, to escape in a case of emergency.

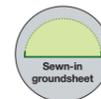

UV Guard™

UVGuard™ fabric provides protection against the sun's ultraviolet rays.

Wind and Rain tested

TBC.

Sewn-in Groundsheet

Protection from wind, rain, and insects around the base of the tent from the attached groundsheet.

Watercolumn

A measure of the waterproof coating of the outer fabric of the tent (the higher the number, the better the water protection)—“waterproof” generally known as 1500.

Fibreglass poles

Highly flexible and lightweight fibreglass poles guarantee a good response to wind and storm.

Wrapflex™ poles

Fiberglass poles are engineered to give utmost flexibility combined with material strength and light weight.

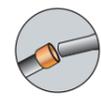

Aluminium poles

The lightweight Coleman aluminium tent poles are engineered to be stronger and more wind responsive. Strategically placed gylines support the pole, helping to anchor the tent and improve its performance in stormier conditions.

Scandium poles

Scandium poles are strong and resilient, offering a higher tensile strength with a lighter weight.

Steel poles

Steel poles are incredibly sturdy and hardwearing, and offer increased strength for larger family tent structures.

A GUIDE TO OUR TENT FEATURES

Coleman® Premium Tent

The Coleman™ Premium Tent range offers our highest quality materials and most spacious interior for our family camping consumers, providing adequate room for 4-8 campers. We strive to make your stay outdoors as comfortable as possible with the Premium Tent range by offering our most durable and reliable features.

- 4000 mm waterproofing
- Rainskirts
- Sewn-in groundsheets
- Galvanized steel poles or Wrapflex™ poles

Coleman® Comfort Deluxe Tent

The Coleman™ Comfort Deluxe Tent range provides family campers with a sturdy, spacious tent perfect in any weather conditions. Separate bedrooms create a convenient sleeping cove for the whole family in these 4-8 person tents which provide adequate headroom and living space for maximum comfort.

- 3000 mm waterproofing
- Sewn-in groundsheets
- Steel poles or Reliable Fiberglass poles

Coleman® Comfort Plus Tent

The Coleman™ Comfort Plus Tent range also gives family campers a spacious interior with separate bedrooms. These 2-6 person tents provide fiberglass poles that are strong in adverse weather conditions, while providing slightly smaller living spaces than the "Comfort-Deluxe" tents.

- 3000 mm waterproofing
- Rising groundsheets
- Fiberglass poles

Coleman® Comfort Tent

The Coleman™ Comfort Tent range provides 2-6 person tents ideal for on-the-go campers looking for overall value. These tents are quickly and easily erected for optimal camping convenience whether you're active or sedentary.

- 2000 - 3000 mm waterproofing
- Fiberglass poles

Coleman® Adventure Tent

The Coleman™ Adventure Tent range focuses on perfecting the balance between weight and performance for lightweight traveling mobility. Pitching and packing is effortless for these 1-4 person tents, offering optimal weather resistance and durability despite their light weight.

- 3000 - 4000mm waterproofing
- Aluminum Poles
- Lightweight

INSTANT TENT™

The Coleman Instant Tent™ introduces a revolutionary technology with sturdy steel poles already connected to the tent. This spider-like structure helps to make pitching extremely fast: the tent is up in just 1 minute! Besides spacious dark bedrooms the Instant Tent™ size 4 provides a large protected living area, large (self-rolling) windows and high quality fabrics with super-strong weather proofing. In addition to the Instant Tent™ 4 Coleman offers a small size in which 4 person find enough room to sleep, but without extra living space. This Instant Tent™ Tourer provides the incredibly fast pitching technology also for more active campers who seek a reliable, small but convenient and comfortable tent. Ideal for weekend get-aways.

SHELTERS, WINDSHIELDS, AND ACCESSORIES

Live extra memories

Extend your living space outdoors at the campsite with these products of camping accessories. Backed by the reassurance of Coleman® quality, these smart accessories provide the desired level of privacy and essential protection from the elements so that the family can sit back, relax and unwind, safe in the comfort of their own defined outdoor space.

ALL SUMMER SHELTER

Sporting the well-known unique Coleman design of the Event Shelter, the new All Summer Shelter is the new model in the Coleman Shelter Range. Specially designed to be used during longer periods of times, so you can enjoy the summer at your campsite or garden with the protection from the sun (or other weather influences) that the shelter can offer. It's available with a wide range of accessories which make this very flexible product into a tent or a fully sealable temporary storage.

INSTANT SHELTER

Most outdoor shelters provide shelter from one thing - the sun. Coleman Shelters provide protection from the sun, the wind and the rain with our exclusive WindStrong™ System. This wind-tested technology combines vented canopies, shock-corded poles, patent-pending hubs and Guy lines to ensure your Coleman Shelter is strong, sturdy and secure. Next time you need outdoor shelter, count on Coleman quality to provide you with more than just shade. Check out Coleman Instant Shelters. The patented Instant Canopy frame sets up in less than 60 seconds, leaving you more time for having fun. If you like to be outside and not spend a lot of time setting up your equipment, you'll appreciate the Instant Canopies easy set-up.

ADVENTURE TENTS

Coleman® Adventure Tents - constructed for today's adventurer

The Adventure range focuses on perfecting the balance between weight and performance for lightweight adventures, where every gram counts. Whatever the gradient of your terrain, the fluctuations in temperature you face, or the extreme ruggedness of the territory you explore; Coleman® Adventure products are designed to guarantee 100% performance time after time.

TAURI™

A revolution in tent design, the new tent construction developed by Coleman® engineers to significantly reduce both tent set-up and pack-down times. The dome shape offers plenty of internal space with good head height and uses an aluminium pole construction which is lightweight but offers superior strength.

- 1 Solid tent structure with lightweight materials keeps you safe and dry in adverse weather for a perfect camping trip.
- 2 Plenty of space for campers and kit offering a comfortable, happy camping experience for all.
- 3 Adjustable ventilation reduces condensation build-up, eliminating wet and uncomfortable sleeping bags.

LIBRA™

Exceptionally quick to pitch when it matters most, this single pole tent is designed for fast and light adventures. Cleverly constructed, the pole is permanently attached to the flysheet and is not only easy to pitch but also incredibly quick to pack down too, using lightweight, high quality materials for guaranteed performance every time.

- 1 No more struggling with poles and tent fabric, one easy move and your tent is perfectly pitched.
- 2 Solid tent structure with lightweight materials keeps you safe and dry in adverse weather for a perfect camping trip.
- 3 Lightweight with a compact pack size, it will fit neatly in a backpack and won't weigh you down.
- 4 Adjustable ventilation reduces condensation build-up, eliminating wet and uncomfortable sleeping bags.

RIGEL™

Weighing only 980g, quick to erect, and ultra compact, the Rigel™ is perfect for lightweight trekking. Double layer ventilation and siliconised flysheet ensure maximum protection from difficult conditions.

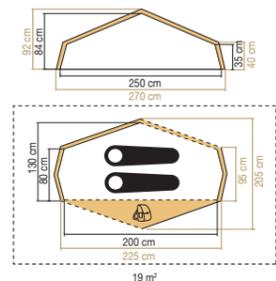

- 1 High quality components ensure that your tent is weather resistant, even in extreme conditions.
- 2 Compact pack size with ultra light-weights, perfect for trekking when every gram counts.
- 3 Rapid set-up and set-down - you will be protected from the harshest conditions in minutes.

COBRA™

A lightweight tent that offers superb value for a budding adventurer; the wedged tunnel design is wind responsive and strong. A quick and easy to erect design, you will be pitched in minutes and the use of aluminium poles ensures that this tent performs in inclement conditions but retains its lightweight credentials.

- 1 Simple and quick to pitch; with flyfirst pitching you will be protected from the elements in no time.
- 2 Lightweight with a compact pack size, it will fit neatly in a backpack and won't weigh you down.
- 3 Wedged tunnel construction is stable, keeping you dry and protected in high winds.

SLEEPING BAGS AND ACCESSORIES

Guarantee a good night's sleep

The sleeping bag is one of the most important components of your camping or trekking gear. Being kept awake at night by a lack of comfort or feeling cold can quickly ruin any trip. Whether you're camping with your family or trekking in a more extreme environment, choosing the right sleeping bag means making some important decisions.

CLIMASHIELD™ XP

CONTINUOUS FILAMENT INSULATION

Climashield XP:

Climashield XP insulation is a continuous filament filling. It is compressible, it doesn't migrate, therefore avoids cold spots. It is hypoallergenic and absorbs less moisture than other synthetic insulations. It has a superior loft and warmth retention properties even when wet. It is odour-free, insect resistant, mildew and fungus free. It can be machine-washed and tumble-dried on delicate settings.

Coletherm® XTR

Insulation constructed using a blend of three different types of fibres generating warmth, loft and durability. It has an excellent warmth to weight ratio, great loft retention and is highly compactable. It is a bonded insulation therefore has reduced fibre migration, so no cold spots, it is also hypoallergenic.

Coletherm® Micro

This high performance synthetic insulation is very light and compressible, resulting in extremely compact pack sizes. It is a bonded micro fibre insulation that works by trapping air around the fibre for a more effective performance. It offers a great heat to weight ratio and as it is a bonded insulation it has reduced fibre migration, eliminating cold spots.

Coletherm®

A synthetic insulation with hollow fibres that creates pockets of air to retain warmth. It has a high loft for comfort and is compressible. Machine washing does not affect its performance.

2-way compression bag

The 2-way compression stuff sack reduces the size further once packed by pulling the two compression straps. Allows compression even for spacious sleeping bags.

4-way compression bag

The 4-way compression stuff sack reduces your sleeping bag to a very small size once packed by pulling the four compression straps.

Rectangular stuffsack

The rectangular stuffsack offers enough space to conveniently pack sizeable sleeping bags.

Normal stuffsack

Simple stuffsack to pack mummy or rectangular sleeping bags.

Joinable sleeping bag

Joinable with a second identical sleeping bag with reversed zipper.

Joinable sleeping bag

Joinable with a second identical sleeping bag with reversed zipper.

Joinable sleeping bag

Joinable with a second identical sleeping bag with reversed zipper.

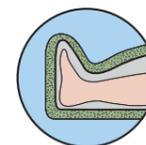

Comfort Cuff

Surrounds your face with softness.

Pillow Pocket System

Place your pillow perfectly under your head inside the sleeping bag.

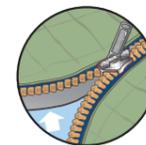

3D Foot Area

For more room and comfort for your feet.

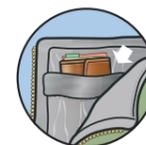

Auto-lock Zipper

The auto-lock system prevents the zipper from unzipping itself by locking in place.

Thermolock™ Zipper Baffle

The Thermolock™ construction reduces heat loss through the zipper, keeping you warmer.

Inner Pocket

Sleeping bag has an inner pocket to hold valuables or small items.

Thermo Collar

Provides extra warmth and insulation near the hood where air can escape.

ZipPlow™

Prevents zipper to snag by ploughing fabric away from the zipper.

A GUIDE TO OUR SLEEPING BAGS FEATURES

CASPIAN™

The Caspian™ sleeping bag contains thick flannel lining, providing extreme comfort in various weather conditions. Coletherm® HollowFiber insulation keeps campers warm at night, while the semicowl hood style leaves plenty of head-room for ultimate relaxation and satisfaction. The Caspian™ is also equipped with a comfort cuff near the opening, which gives extra padding near the hood.

STOVES, LANTERNS AND APPLIANCES

Built to last a generation..., or two

Coleman® camp stoves, grills and lanterns are designed with the family in mind, and are amazingly easy to use. We never stop thinking up ways to make the food you eat at the campsite the best it can be, the lighting brighter and the whole camping experience more fun for everyone.

F1 APPLIANCES

The F1 stoves and lantern are incredibly light and offer a combination of features that backpackers and trekkers have previously only dreamt about.

F1 Power® PZ

Ultra-light stove with high power of 7,000 watts. Ideal for hikers, trekkers and backpackers. It features four foldable pan supports, an integrated arm locking ring for added safety and a piezo for easier ignition. It has a great wind resistance.

	202662
Power:	7,000W
Gas outflow:	515 g/h
Boil time:	2min 36sec and under wind conditions: 5min 20sec
Size:	9 x 12 x 7 cm
Features:	Piezo ignition. Lightweight and compact textile carry pouch (11g) included.
Weight:	153 g

F1 Lite® Stove

One of the lightest stoves on the market at 77g, the F1 Lite® is compact with three pan supports that can be folded and detached.

	68178
Power:	4,800W
Gas outflow:	346 g/h
Boil time:	3min and under wind conditions: 5min 40sec
Size:	4.3 x 8 x 5 cm
Features:	Lightweight and compact textile carry pouch (11 g) included
Weight:	77 g

F1 Spirit™

Combining a compact design with technological materials including lightweight PEEK plastic components. The F1 Spirit™ features foldable stainless steel arms with a high power burner, making it an admirable trekking partner.

	203410
Power:	3,100W
Gas outflow:	226 g/h
Boil time:	3min 30sec
Size:	9x 8 x 15 cm
Features:	Lightweight carry pouch included
Weight:	118 g

COOK SET

Compact lightweight and durable cooking accessories, ideal for the campsite or trekking trips.

Family Cook Set

Non-stick cook set. Two skillets and one saucepan provide enough capacity for the whole family. A detachable handle fits both, pan and skillet.

	204057
Dimensions:	25 cm skillet, large 6 l kettle, 2 l saucepan, & large interchangeable lid for skillet and kettle
Features:	Durable due to non-stick surface. Ergonomically designed handles. Slits on lids for easy straining. Detachable handle (fits both saucepan and skillet). Interchangeable lid for skillet and kettle
Weight:	3 kg

F1 Lite® Lantern

The lightest lantern in the market. It has been designed for trekking where every gram counts. The textile carry pouch incorporates a lightweight protection cylinder for added convenience. Easy access to mantle with detachable mesh globe that is unbreakable.

	69188
Gas outflow:	25 g/h
Size:	52 x 52 x 104 mm
Features:	Detachable mesh unbreakable globe. Wire knob for easier handling (with gloves). Light cable handle (only 4.1 g). Standard mantle (size S)
Weight:	88 g

PROPANE STOVES

COLEMAN® FUEL

Coleman® cartridges offer 70/30 butane/propane gas mixture in threaded self-sealing cartridges with safety valve. They are compatible with all Coleman® resealable appliances.

Coleman® 100

97 g butane/propane mix, valved cartridge

200760

Size: Ø 90 x 70 mm

Weight: 175 g

Pierceable Cartridge

190 g butane/propane pierceable cartridge

202964

Size: Ø 90 x 85 mm

Weight: 240 g

Propane Cylinder

Each Coleman® Propane cylinder contains 465 g of propane. Thanks to physical properties of Propane, every last gram of gas in the cylinder is used to operate stoves, lanterns or heaters. It is also a cleaner combusting fuel, producing less carbon dioxide and as a result, less pollution Fullstop Coleman® Propane cylinders are delivered in a pack of 2.

3000000432

Size: Ø 195 x 100 mm

Weight: 935 g

Features: 465 g of propane. Pack of 2 cylinders

300 G Max® Cartridge

300 g of 60/40 butane/propane mix for Max® stoves.

9700-730E

Size: Ø 65 x 225 mm

Weight: 382 g

1 Litre Coleman® Liquid Fuel

1 Litre of liquid fuel for all Coleman® Liquid Fuel appliances.

39252

Size: Ø 90 x 265 mm

Weight: 1.058 kg

LIQUID FUEL STOVES

Coleman® multi-fuel and liquid fuel stoves are ideal for base camps and expeditions anywhere in the world.

Unleaded 2-Burner Stove

Features two burners, large pan support area and effective windshields. Packs away into a self-contained carry case.

3000000396

Power:	4225W
Boil time:	4 min
Runtime:	Up to 2 h
Size:	46 x 29 x 12 cm
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel
Weight:	5.3 kg

Unleaded Feather™ Stove

The Unleaded Feather™ stove features fold-out feet for maximum stability, precise flame control and an integrated fuel tank.

442-700E

Power:	2200W
Boil time:	3min 55sec
Runtime:	Up to 7 h
Size:	15 x 12 cm Ø
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel
Weight:	685 g

MultiFuel Stove

A special, compact trekking stove with a second generator for using paraffin/kerosene.

550B-498E

Power:	2200 W
Boil time:	3min 55sec
Runtime:	Up to 7 h
Size:	15 x 13 cm Ø
Features:	Operates off Coleman® Liquid Fuel or paraffin/kerosene
Weight:	660 g

Unleaded Sportster™ II

The Unleaded Sportster™ stove is efficient, robust and runs from either Coleman® Liquid Fuel or unleaded petrol.

533-700E

Power:	2500W
Boil time:	5min 20sec
Runtime:	Up to 8h 30min
Size:	15 x 12 cm Ø
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel
Weight:	1.19 kg

LANTERNS

Coleman® multi-fuel and liquid fuel lanterns are ideal for base camps and expeditions anywhere in the world.

Northstar™ Lantern

The famous Coleman® Northstar™ Lantern runs on Coleman® fuel or unleaded petrol, meaning you can rely on Northstar™ even when travelling in the most remote parts of the world. If you're looking for a lantern that's reliable, durable and easy to use, it will exceed your expectations.

2000-750E

Power:	220W
Runtime:	Up to 14 h
Size:	H 36 x Ø 15 cm
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel. Piezo ignition
Weight:	1.8 kg

Powerhouse™ 2 Mantle Lantern

The Powerhouse™ 2 Mantle Lantern is easy to use and economical. It features a brass burner tube and adjustable brightness.

295-700E

Power:	200W
Runtime:	Up to 7 hours on high on one tank of fuel
Size:	H 40 x Ø 17.5 cm
Features:	Dual Fuel™ lanterns are conveniently designed to operate on Coleman® fuel or unleaded gasoline. Fuel tank capacity of 2 pints. Filter funnel included
Weight:	1.62 kg

Compact™ Lantern

Compact, ultra-light single mantle lantern with adjustable brightness. Economical and environmentally friendly.

226A700E

Power:	
Runtime:	Up to 5 h
Size:	H 24 x Ø 11 cm
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel
Weight:	817 g

1 Mantle Lantern

Economic lantern with handle to carry or hang, adjustable brightness and filter funnel.

282-700E

Power:	125W
Runtime:	Up to 14 h
Size:	H 32 x Ø 15 cm
Features:	Operates off unleaded petrol or Coleman® Liquid Fuel
Weight:	1.35 kg

ELECTRIC LIGHTS

Brilliance comes as standard

If you called us the lighting experts, you'd be right. With more than 50 million lanterns built since 1901, you'll be glad we built yours. As sure as the sun rises in the east and sets in the west, you can count on Coleman® lanterns, flashlights and utility lights to brighten the night.

CPX™ POWER SYSTEM

Choose your power - with the CPX™ system you can either operate on included battery cartridge and 4D batteries or the rechargeable power cartridge (sold separately). This interchangeable system can be used with a wide range of Coleman products. The rechargeable power cartridge pack is not only economical but also the more eco-friendly solution.

LANTERNS

The Coleman lantern range has all shapes and sizes you need for your next outdoor adventure. You can find family sized battery operated lights, LED lights or rechargeable lanterns.

(Flashlight)

*Flashlight connects to the lantern or can be used separately. Use the flashlight while connected to the lantern for ambient lighting. The Flashlight has a rechargeable battery which is charged from a CPX 6 cartridge or regular batteries inside the Lantern when plugged in.

OUR STANDARD

All our spotlights, torches, and headlamps are tested to ANSI FL1 standard.

Light Output

Light Output is the total quantity of luminous flux or quantity of light emitted by a source as measured by integrating the entire angular output of the portable light source. It corresponds to the total light output. It is measured in Lumens.

Beam Distance

Beam Distance is defined as the distance from the device at which the light beam is 0.25 lux (0.25 lux is approximately the equivalent of the light emitted from the full moon "on a clear night in an open field")

Runtime

Runtime is defined as the duration of time from the initial light output value - defined as 30 seconds after the point the device is first turned on - using fresh batteries, until the light output reaches 10% of the initial value.

Coleman has partnered with the key Technology Leaders in the portable lighting industry:

- 1) Superior LED technology: **CREE, NICHIA**
- 2) Best class batteries: **Duracell**

These partnerships include:

- 1) Access to the newest technologies
- 2) Access to highest performance LEDs

SPOTLIGHTS

Coleman® LED Spotlights are extremely durable, designed for comfortable indoor and outdoor usage. Operating with CPX™ 6 Rechargeable Power Cartridge or disposable batteries.

COOLERS

An essential part of every summer

At the backyard barbecue, on the worksite, at the beach, on your camping or fishing trip, you just can't get by without them. Whether you need a chest, personal or wheeled; you can count on Coleman® products to keep your food and drinks cold. Our chest coolers have enough room to hold 2-litre bottles upright, specially designed lids, easy-carry handles and durable construction. Just what you ordered.

ULTIMATE® XTREME® MARINE

The Ultimate® Xtreme® Marine Coolers keep ice up to six days in 32° C/90° F heat. Our secret? Two centimeters of insulation for maximum cold retention. Other convenient features include drink holders, two-way handles and a channel drain for no tilt draining.

36Qt Xtreme® Marine Cooler

Cooler in white design with overmolded handles for easy portability.

3000001337

Holds:	8 horizontally 1.5 L bottles
Capacity:	32.9 L
Features:	Overmolded handles. Stainless Steel hinges and screws Rustproof, leak-resistant drain for no-tilt draining. Antimicrobial additive. UV reflective color additive protects case.
Cooling performance:	32 h 09 min with Freez' Pack® (sold separately).
Weight:	3.4 kg

100Qt Xtreme® Marine Cooler

Extra spacious white Marine cooler keeping high volumes cool and fresh.

3000001200

Holds:	20 vertically and 35 horizontally 1.5 L bottles
Capacity:	90.2 L
Features:	Overmolded handles. Stainless steel hinges and screws. Stainless steel cable lid strap. Threaded drain with drain valve. Antimicrobial liner. UV reflective color additive protects case.
Cooling performance:	48 h 30 min with Freez Pack (sold separately).
Weight:	8.7 kg

70Qt Xtreme® Marine Cooler

Cooler in white design with overmolded handles for easy portability.

3000001198

Holds:	16 vertically and 20 horizontally 1.5 L bottles
Capacity:	64.6 L
Features:	Overmolded handles. Stainless Steel hinges and screws Rustproof, leak-resistant drain for no-tilt draining. Antimicrobial additive. UV reflective color additive protects case.
Cooling performance:	47 h 05 min with Freez' Pack® (sold separately).
Weight:	6.2 kg

XTREME®

Coleman® Xtreme® coolers are designed to keep large volumes of food and drinks cool. Hinged lids with beverage holders and 2-way handles increase your comfort.

100-Quart Xtreme® Cooler

Xtreme® Cooler, coming with hinged lid and deep beverage holders.

	3000001282
Holds:	20 vertically or 35 horizontally 1.5 L bottles
Capacity:	64 L
Features:	Hinged lid. 4 beverage holders. Rustproof, leak-resistant drain. 2-way handles for easier lifting and carrying.
Cooling performance:	56 h 25 min with Freez Pack (sold separately)
Weight:	7.6 kg

70-Quart Xtreme® Cooler

Xtreme® Cooler, coming with hinged lid and deep beverage holders.

	3000001274
Holds:	16 vertically or 20 horizontally 1.5 L bottles
Capacity:	66 L
Features:	Hinged lid. 4 beverage holders. Rustproof, leak-resistant drain. 2-way handles for easier lifting and carrying.
Cooling performance:	45 h 05 min with Freez Pack (sold separately)
Weight:	6.6 kg

52-Quart Xtreme® Cooler

Xtreme® Cooler, coming with hinged lid and deep beverage holders.

	3000001276
Holds:	20 vertically or 35 horizontally 1.5 L bottles
Capacity:	48 L
Features:	Hinged lid. 4 beverage holders. Rustproof, leak-resistant drain. 2-way handles for easier lifting and carrying.
Cooling performance:	47 h 40 min with Freez Pack (sold separately)
Weight:	5.8 kg

36-Quart Xtreme® Cooler

Xtreme® Cooler, coming with hinged lid and deep beverage holders.

	3000001279
Holds:	6 horizontally 1.5 L bottles
Capacity:	32.9 L
Features:	Hinged lid. 4 beverage holders. Rustproof, leak-resistant drain. 2-way handles for easier lifting and carrying.
Cooling performance:	47 h 05 min with Freez' Pack® (sold separately)
Weight:	5.2 kg

50-Quart Xtreme® Wheeled Cooler

An easy transportable, lightweight cooler.

	3000001277
Holds:	10 vertically or 10 horizontally 1.5 L bottles
Insulation:	PU foam for body and lid
Capacity:	47 L
Features:	Telescopic handle. 2 robust wheels. Hinged lid. 4 cup holders. Recessed hatch holds lid tightly. Rust-proof and leak resistant water drain
Cooling performance:	39 h with Freez' Pack® (sold separately)
Weight:	7.2 kg

POLY-LITE™, CHEST & FLIPLID™

JUGS & FLASKS

Coleman® jugs and flasks are extremely efficient and practical. They are made from durable Polyethylene with Polyurethane foam CFC & HCFC free insulation.

Poly-lite™ 48-Quart

A very sturdy design.

	3000001278
Holds horizontally:	9 x 1.5 l bottles
Capacity:	45.7 L
Cooling performance:	32 h with Freez' Pack® (sold separately)
Weight:	4 kg

Chest 36-Quart

Lid with cup holders and fish measuring scale.

	3000001281
Size:	57.6 x 37.5 x 34 cm (L x H x W)
Holds:	8 vertically 1.5 L bottles
Capacity:	34 L

STANDARD TERMS & CONDITIONS OF SALE

1. **ENTIRE AGREEMENT.** The party to whom goods are being sold, either by means of electronic data interchange or a traditional paper transaction is "Buyer." We are "Seller." The terms and conditions stated herein supplement Seller's sales agreement ("Vendor Agreement") specific to Buyer and together the terms and conditions and the Vendor Agreement constitute the entire agreement between Buyer and Seller ("Agreement"). In the event of conflict between the Agreement and those contained in any other proposal, purchase order, invoice, acknowledgement, or writing, this Agreement shall control. Any change to or addition of the Agreement must be in a separate writing and signed by both parties hereto.

2. **SELLER'S TERMS PREVAIL. THE PURCHASE OF SELLER'S GOODS IS EXPRESSLY CONDITIONED ON BUYER'S ASSENT TO THIS AGREEMENT. ANY ADDITIONAL AND/OR DIFFERENT TERMS AND CONDITIONS ARE HEREBY EXPRESSLY REJECTED. BUYER SHALL BE DEEMED TO HAVE ACCEPTED THE AGREEMENT THE EARLIER OF SELLERS' ACKNOWLEDGEMENT OF THE ORDER AND BUYER'S RECEIPT OF GOODS.**

3. **ASSIGNMENT.** Buyer shall not assign any sales order or any part thereof including, but not limited to any obligations to make any payment(s) due or to become due hereunder, without the written consent of Seller.

4. **PRICES.** Prices and terms are subject to change without notice. Seller will endeavour to provide Buyer with 30 days notice. The price to be applied shall be that which is in force on the date of delivery. Unless otherwise expressly accepted by Seller, Prices are quoted either : (i) ex-works dispatching place (Incoterms 2010-ICC), at which time Prices are exclusive of all transportation, insurance, taxes, license fees, customs fees, duties and other charges related thereto. Buyer shall pay any and all freight charges to the final destination and hold Seller harmless therefrom; or (ii) FOB port of shipment (Incoterms 2010-ICC) when Seller may offer merchandise for sale direct from Asia, at which time Seller only bears the expense of moving the container(s) to the named port in the country of origin.

Prices are for products only and do not include technical data, proprietary rights of any kind, or patent rights. Seller's intellectual property rights shall remain its absolute unencumbered property and nothing contained herein shall give Buyer any right, title or interest in or to Seller's intellectual property right.

5. **PAYMENT.** Products are invoiced on each delivery in USD, Euro or any other currency agreed by Seller. TIME IS OF THE ESSENCE for Buyer to pay Seller for the goods. The agreed upon payment terms are stated in the Vendor Agreement and on the invoice. In the absence of any such statement, payment is due in full within sixty (60) days from date of invoice by cheque, bank transfer, draft or any other mean of payment expressly accepted by Seller. In the event Buyer fails to make timely payment on one or more of Seller's invoices, Seller shall have the right to accelerate all outstanding payments Buyer owes to Seller and make such payments immediately due and payable, regardless of payment terms. Seller reserves the right to require payment by letter of credit, cash on delivery or other suitable payment terms and otherwise modify credit terms or to suspend production, shipment or delivery if prompt payment is not made. When partial shipments are made, payments for such partial shipments shall become due in accordance with the terms stated herein.

Seller does not ship any merchandise on consignment. All orders are accepted with any credit terms extended subject to the approval of the Seller's Credit Department. All late payments shall incur an interest charge of at least three (3) times the legal interest rate increased by 5 points, invoiced to Buyer without any formality. The interest rate stated herein shall continue to accrue after Seller obtains a judgment against Purchaser. The Seller has the right to exercise setoff or recoupment when needed to satisfy an outstanding debt.

6. **PURCHASE MONEY SECURITY INTEREST.** All products remain Seller's property until full payment thereof by the Buyer (price, interest and incidental expenses). Title to the products shall pass to the Buyer upon full payment.

To secure the performance of its obligations hereunder, Buyer hereby grants to Seller a security interest in all of its inventory of goods purchased hereunder for which Seller has not received payment pursuant to Section 5 hereof ("Secured Inventory"). Buyer warrants that all Secured Inventory will be owned by Buyer free of all other liens, security interests, and encumbrances that are prior to that of Seller. All of the Secured Inventory will be kept at the facilities, the addresses of which will be delivered to Seller at its request; but Seller's lien and security interest will be maintained despite the location of the Secured Inventory. Except for sales made in the regular course of business, Buyer shall not sell, encumber or dispose of or permit the sale, encumbrance or disposal of any Secured Inventory of goods without the prior written consent of Seller. In the event that Buyer sells Secured Inventory in the regular course of business, Buyer shall identify other inventory of value equal to that of the sold Secured Inventory as collateral for the security interest, which inventory then will be treated as Secured Inventory under this Paragraph 6. Buyer agrees to execute any

instruments requested by Seller from time to time for purposes of further evidencing such security interest or notifying third parties by recordation or otherwise of such security interest.

7. **UNAUTHORIZED DEDUCTIONS.** Seller does not recognize any deduction or penalty policies of Buyer other than a fully executed agreement and this Agreement. Should Buyer take an unauthorized deduction from a payment to Seller, Seller will reject the claim as invalid. Buyer will repay any such deduction immediately upon notification from Seller. Unauthorized deductions that are not immediately repaid will be deducted from any available credits due Buyer, including but not limited to, agreed upon merchandise returns or sales program allowances. Seller reserves the right to suspend shipments to Buyer until the unauthorized deduction(s) is repaid in full.

8. **RIGHT TO AUDIT.** Any disputes by Buyer shall be submitted to Seller in writing with proper documentation within one year of the invoice date. All Buyer claims received more than one year after the invoice date are waived.

9. **FREIGHT TERMS.** Unless otherwise accepted by Seller, sales of products are made ex-works dispatching place (Incoterms 2010-ICC) or FOB port of shipment (Incoterms 2010-ICC) when Seller may offer merchandise for sale direct from Asia. The Buyer must take delivery of the products and bear all risks of loss of or damage to the products from the time they've been rendered at the dispatching place. The Buyer shall issue a specific cargo insurance policy for any damage to the products from the time they've been rendered at the dispatching place; it is therefore the Buyer's obligation to submit claims for damages or shortages directly to their contracted carrier for any shipments. Seller is subrogated in the Buyer's rights towards his insurer. In the event that Seller procures insurance against the Buyer's risk of loss of or damage to the products during the carriage, the Buyer undertakes to (i) check the products on delivery (defects and/or shortages) and to (ii) immediately notify Seller of any transportation reserve.

10. **DELIVERY.** Delivery dates are approximate and shall be computed from the date of acceptance of the order by the Seller. Seller will deliver promptly on acceptance of each order. Seller will use its reasonable best efforts to fill all orders according to their terms. However, if any conditions arise which prevents compliance with the delivery schedule, Seller shall not be liable for damages, general, incidental, consequential, compensatory or otherwise, or for failure to give notice of any delay and Seller shall have such additional time within which to perform as may be reasonably necessary under the circumstances and shall have the right to apportion its production among its customers in such a manner as it considers equitable. Seller shall also have the right to deliver the goods in instalments including but not limited to, delivering from multiple origins.

11. **PRODUCT RETURNS.** Products in new condition (including but not limited to overstock, shelf worn or shelf damaged goods, or previously unsold obsolete goods) or defective goods may not be returned to Seller without prior written authorization and instructions properly issued by Seller. Seller shall not accept returned products except in accordance with such authorization and instructions. In the event of a rejection of any of the Products, risk of loss shall remain upon Buyer until the returned Products are accepted by Seller. Unless otherwise agreed, Seller will not bear any charges from the Buyer associated with the return, including transport costs, special handling fees or storage fees. Seller shall decide, at its exclusive option, if the products are to be replaced.

12. **RIGHT TO CANCEL.** Seller is under no obligation to grant Buyer's request to cancel or change quantities on previously submitted and accepted orders. If in its sole discretion, Seller allows Buyer to cancel all or a portion of an order and the work, delivery preparation, labelling or loading has already begun or is complete, Seller reserves the right to charge the Buyer restocking fees.

a. **Hold to Confirm Orders ("Booking Orders").** Seller will accept Booking Orders for mutual planning of future deliveries to Buyer. Booking orders may not be changed within 15 (fifteen) days of delivery, including but not limited to, changes to the quantity ordered or the mix of goods ordered. The requested delivery date on Booking Orders may not be changed. At no time may the value of the Booking Order be changed by virtue of quantity reductions, substitutions or item cancellation, so as to reduce the overall value more than 10% (ten percent) of the original submitted value.

b. **Manufactured to order cannot be cancelled or changed once the Buyer has confirmed the order.**

In addition to all other rights and remedies available to it, Seller reserves the right to cancel the order immediately by written notice to the Buyer in case of failure of the Buyer to perform or comply with any of the terms or conditions herein.

13. **PROPRIETARY GOODS.** Seller may agree at its sole discretion to produce or procure Special Make Up ("SMU") goods for Buyer. SMU goods may include but are not limited to a proprietary colour, carton markings, design or combination of multiple finished goods sold as a single selling unit. Buyer and Seller will collaboratively plan the lead-time production and sales forecast for the SMU items. Seller will produce or procure the forecasted quantities. Buyer agrees to purchase the total amount of SMU goods forecasted for the calendar year. If Buyer's orders have not consumed the forecast for the SMU items by December 1st of the given year, Buyer will immediately place an order for the balance to deliver from Seller by the end of the calendar year.

14. **SALE OF EXCESS OR OBSOLETE GOODS.** Seller may offer from time to time, close out purchases of excess, obsolete or discontinued goods ("E&O"). Orders for E&O goods are filled on a first come, first served basis. To secure the E&O goods, Buyer must submit a firm order before any other customer's order for the same goods.

15. **DIVERSION OF GOODS, LIMITATION ON RESALE.** Seller maintains sales relationships with a wide variety of retailers, wholesalers, discounters and distributors. Unless otherwise expressly agreed by Seller, Buyer agrees not to resell the goods on a wholesale basis and understands that the goods may be specially coded to identify them as goods sold to Buyer. Should Buyer resell goods on a wholesale basis without being expressly authorized by Seller, Buyer shall pay damages to Seller in the amount equal to the difference between the price at which Buyer purchased the goods from Seller and the price which Seller could have received from the party to which Buyer sold the goods at wholesale, together with all reasonable attorneys' fees, costs of investigation and expenses expended by Seller to enforce this provision.

16. **INTERNET SALES.** With prior written approval from Seller, Buyer may use and display Seller's logos and trademarks ("Marks") in connection with the marketing, distribution and sale of goods online. Buyer acknowledges that all such Marks are the exclusive property of Seller. Any product descriptions or pictures ("Content") provided by Seller for use on Buyer's website(s) is the exclusive copyright protected property of Seller. Use of any of the Seller's Marks in any Uniform Resource Location ("URL"), domain name, trade name, or business name is prohibited without express prior written consent of Seller. Seller reserves the right not to establish new business relationships with Internet only Buyers that have no physical store locations and/or do not maintain an inventory of goods

17. **NO EXPORT OF GOODS.** Buyer agrees and represents that the goods sold hereunder are sold solely for use and consumption within Europe and are not for export outside of Europe, regardless of method of sale including Internet sales. Buyer further understands that Seller's consumer warranty is only valid for consumers in Europe unless Seller has explicitly stated otherwise in writing. Buyer is aware that the goods are not designed to comply with the requirements for sale in any other jurisdiction than the respective markets in which they are sold. If Seller is made aware, through any means, that Buyer is exporting goods purchased from Seller without the express written consent of Seller, Seller reserves the right to cancel all outstanding orders from Buyer and to refuse all future orders. If Seller has given its written authorization for Buyer to export the goods outside of Europe, Buyer shall comply with all export laws and regulations including, but not limited to, export licensing requirements, and Buyer shall be responsible for any goods' compliance or non-compliance with applicable laws in the country to which such goods are exported. Buyer agrees not to resell the goods to a country or person prohibited from engaging in commerce with the United States.

18. **PRESENCE ON SELLER'S PREMISES.** If Buyer's performance hereunder requires the presence of Buyer, its employees, agents or subcontractors upon Seller's premises, Buyer (and its employees, agents and subcontractors) shall comply with all relevant laws and with Seller's policies and internal procedures. Buyer shall also take such further precautions necessary or reasonable to prevent any personal injury or property damage from occurring as a result of the presence of Buyer, its employees, agents and/or subcontractors on Seller's premises. Any such precautions that Buyer takes which affect Seller's property or operations shall require Seller's prior consent. Buyer shall indemnify Seller for any and all damages, losses, costs and expenses, including attorneys' fees and expenses and costs of investigation, which Seller suffers or incurs in any way which result, in part or whole, from an act or omission of Buyer, its employees, agents or subcontractors. Buyer shall maintain such Commercial General Public Liability, Workers' Compensation and Employer's Liability Insurance as will protect Seller from any and all such liability. Buyer shall provide Seller with proof of coverage upon Seller's written request.

19. **NO AGENCY.** Nothing in the Agreement shall create or be deemed to create any relationship of agency, partnership or joint venture and Buyer will bear all of its expenses in connection herein. In this context, Buyer shall be solely responsible for the remuneration of its employees and for paying all expenses and outlays whatsoever of said employees, which are not connected in any way whatsoever with Seller. Buyer shall hold Seller harmless for any claim which would be directed against it by an employee at anytime during or after the Agreement.

This Agreement shall not have any authority to assume or create any obligation, express or implied, on behalf of Seller. Buyer shall not make quotations or write letters over the name of Seller but in every instance shall use its own name.

20. **INDEMNIFICATION.** Buyer shall indemnify, defend and hold Seller harmless from and against any and all claims, damages (including incidental and consequential damages), losses, costs and expenses (including reasonable attorneys' fees) which Seller may suffer or incur arising out of: (i) any breach of the terms and conditions herein by Buyer; (ii) any acts or omissions by Buyer, its employees, agents or subcontractors; (iii) any alteration(s) to the goods not authorized by Seller; (iv) Buyer's removal of or failure to include any and all instructions and warnings regarding the goods and provided by Seller; (v) Buyer's oral or written instructions or warnings inconsistent with those provided by Seller; (vi) goods that have been damaged by Buyer or those that have been damaged by a consumer and/or returned by a consumer after a retail sale; and/or (vii) Buyer's or Buyer's customer's failure to comply with all applicable laws, rules, regulations or ordinances.

21. **WARRANTIES.** Seller warrants: (i) that the goods delivered pursuant hereto are manufactured in accordance with applicable laws and regulations; and (ii) that Buyer, upon full payment of the purchase price therefore, will receive title to the goods. Seller may provide the retail purchaser of the goods with a consumer warranty, as set forth in the packaging or labelling of such goods. Seller MAKES NO OTHER WARRANTY, EITHER EXPRESS OR IMPLIED, WITH REGARD TO THE GOODS DELIVERED PURSUANT HERETO. SELLER EXPRESSLY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL SELLER BE RESPONSIBLE TO BUYER OR TO ANY PARTY FOR INCIDENTAL, CONSEQUENTIAL, SPECIAL OR PUNITIVE DAMAGES. Seller's sole responsibility and Buyer's exclusive remedy for breach of this warranty shall be the offer of an update for or the repair or replacement of such products or, if neither of the foregoing is feasible in Seller's reasonable discretion, refund of the purchase price paid for such products. Except for Seller's limited warranty accompanying the products, this warranty and the remedies identified herein is in lieu of all warranties, terms or conditions, express or implied, either in fact or by operation of law, statutory or otherwise, including warranties, terms or conditions of merchantability, fitness for a particular purpose and satisfactory quality.

22. **EFFECTIVENESS.** Any term(s) or condition(s) set forth herein which is/are invalid or unenforceable shall be ineffective only to the extent of such invalidity or lack of enforceability and shall not render invalid or unenforceable the remaining terms and conditions.

23. **FORCE MAJEURE.** Seller shall not be considered in default hereunder or be liable for any failure to perform or delay in performing any provisions of this Agreement in the customary manner to the extent that such failure or delay shall be caused by an act of God; fire, explosions, hostilities or war (declared or undeclared); or striking or work stoppage involving its employees. Seller shall use every reasonable means to resume full performance of this Agreement as promptly as possible; it being understood that Seller shall be entitled to automatically cancel the order after a (3) three months period of suspension.

24. **LAW/DISPUTE RESOLUTION.** The rights and duties of the parties to this transaction shall be determined by the laws of the Seller's country without regard to conflict of law principles. Any and all disputes arising in connection with this transaction shall be decided by the relevant Courts in the Seller's country.

25. **CONFIDENTIALITY.** Buyer shall hold the terms and conditions of this Agreement, including but not limited to the pricing, offered discounts, other sales program specifics or selling and distribution practices or methodologies of Seller confidential for any and all purposes excepting those purposes necessary to the fulfillment hereof.

Data privacy protection. Buyer recognizes and agrees that Seller may collect, use, store and transfer personally and non-personally identifiable information that Buyer may voluntarily provide during the course of their business relationship. The Seller will do its best endeavors to adequately protect such information, in the conditions set forth under a Privacy Policy that the Buyer may consult on the website www.coleman.eu. The Privacy Policy outlines the information that Seller may collect and in which conditions the Seller may use that information.

26. **FAILURE TO ENFORCE AGREEMENT.** Failure by Seller at any time or from time to time to enforce or require strict observance and performance of any term or condition of this Agreement will not constitute a waiver of or affect such term or condition in any way, nor shall such failure affect the right of Seller to avail itself at any time of such remedies as it may have for any breach of such terms or conditions by Buyer.
