SPRING / SUMMER 2013

# WELCOME TO OUR MOUNTAIN

Here at Dare 2b we know it's not what we say but what we do that matters. We want products that are fit for purpose, without bulk, weighs less for a faster, lighter solution. That's why when it comes to developing our spring/summer 13 collection our athletes are out in all conditions putting our products to the test.

To see what our team members think of the range. Scan Now.

When it comes to business back at the office, we want to ensure you receive first class service from placing an order to merchandising it in store by offering great margin, blanket orders, fast delivery and instore training and support.

welcome to our mountain

@oscarpereiro 43,972 Followers  
Tour de France winner

Our brand ambassador Oscar Pereiro is so impressed with our AEP range he's put his name to it.

Cycling has taught me important life values, what it means to strive for improvement and the satisfaction of achieving things I didn't think were possible. Winning the Tour De France was one of the best moments of my life but I've experienced some tough time too and I have the battle scars to show for it. I wouldn't have been able to do any of it if I didn't love this sport.

Dare 2b's new range of Advanced Ergonomic Performance (AEP) gear is designed in collaboration with Oscar Pereiro, it allows the rider to experience optimum comfort. With an articulated cut, strategically placed shaped seams and panels, the rider when in position will feel the garment mould to the shape of their body. The collection is not just for the pros but is for anyone who wants to take part and challenge themselves but have fun doing it.

### DMT092 AEP L/S JERSEY

Sizes: S-XXXL

## FABRIC STORIES

### BODY NEXT TO SKIN TECH

When you're doing your stuff we know you're gonna get sweaty. This is where Dare 2b BODY fabric kicks into gear. So just how will it keep you dry?

#### 01/ Wicking

The technical yarn construction encourages sweat to move away from your skin to the surface of the fabric where it can evaporate.

#### 02/ Quick drying

The technical synthetic fibers draw moisture away from the body so you stay dry.

#### 03/ Anti-bacterial

The built in anti-bacterial odor control treatment eliminates bacteria which multiply in the presence of dirt, moisture and heat.

#### 04/ Easy Care

They're also easy to look after, follow the instructions and wash when dirty. Simple.

### Q-WIC

Stay dry and comfortable all day with our special fabric designed to continually move moisture away from the skin, allowing it to evaporate naturally.

#### 01/ Lightweight

A finer yarn means a lighter, faster you.

#### 02/ Quick drying

The technical synthetic fibers draw moisture away from the body so you stay dry.

#### 03/ Wicking

The technical yarn construction encourages sweat to move away from your skin to the surface of the fabric where it can evaporate.

### Q-WIC<sup>+</sup>

Stay dry and comfortable all day with our special fabric designed to continually move moisture away from the skin, allowing it to evaporate naturally.

#### 01/ Lightweight

A finer yarn means a lighter, faster you.

#### 02/ Quick drying

The technical synthetic fibers draw moisture away from the body so you stay dry.

#### 03/ Wicking

The technical yarn construction encourages sweat to move away from your skin to the surface of the fabric where it can evaporate.

#### 04/ Anti-bacterial

Q-Wic<sup>+</sup> tees also come with an anti-bacterial treatment for odour control.

### D-LYT TECHNOLOGY

Some of our Dare 2b products are available in D-LYT fluorescent colourways, keeping you safer in low light conditions.

### D-NYT 360° REFLECTIVE

Highly reflective trims and details for 360° reflective detail for enhanced visibility.

### BASE LAYER

The key to the performance of any clothing is intelligent layering and the foundation starts with a clever base layer.

New to our range is the BODY Carbon Bamboo bayer layers. Made from almost 50% Carbon bamboo, the fabric is unique and offers:

#### 01/ Warmth

Enhanced Polyester and carbon bamboo fibres provide brilliant thermal properties.

#### 02/ Quick Drying

Holds very little moisture which is easily evaporated from the surface of the fabric

#### 03/ Wicking

The fabric construction encourages moisture to move away from the body.

#### 04/ Anti-Bacterial

Carbon Bamboo has natural anti-bacterial properties which eliminates bacteria and odour

The Dare 2b Aqua Flow reservoir system allows for rehydration whilst active.

Oxy Flow products are uniquely designed to allows air to circulate between the fabric and the skin, keeping the wearer more comfortable.

Products made with Ilus Core Stretch fabric are extremely versatile. Available in two weights as a mid or base layer option.

#### 01/ Warmth

Provides warmth without the weight.

#### 02/ Stretch

For greater freedom of movement.

#### 03/ Quick drying

The technical synthetic fibres draw moisture away from the body.

#### 04/ A finer yarn

A finer yarn means a faster you.

As the saying goes; sometimes the oldies are the goodies. Take fleece for instance, with just a little improvement to the hand feel our WULA fleece is an instant hit.

#### 01/ Warmth

Provides warmth with the reassuring comfort factor.

#### 02/ Quick Drying

The technical synthetic fibers draw moisture away from the body so you stay dry.

#### 03/ Lightweight

A finer yarn means a lighter, faster you.

## FABRIC STORIES

When you are biking, trail running or chasing fast thrills, you don't want to wear bulky gear. You need to be fast and light and that's when Dare 2b Ilus Windshell comes into its own.

### 01/ Wind resistant

State of the art fine denier yarns are tightly woven to keep the wind out.

### 02/ Lightweight

A finer yarn means a lighter, faster you.

### 03/ Compactability

Not just light to wear, they pack down in really small clever stuff-sacks. Stuff them into pockets or attach to your bike.

### 04/ Water repellency

Our fabrics are treated for stain and water resistance. Perfect for light rain conditions.

A finer yarn means a lighter, faster you.

### 03/ Compactability

Not just light to wear, they pack down in really small clever stuff-sacks. Stuff them into pockets or attach to your bike.

### 04/ Water repellency

Our fabrics are treated for stain and water resistance. Perfect for light rain conditions.

### 05/ Stretch

For greater freedom of movement.

The Ilus Softshell family of fabrics offer a 21st century take on outerwear for fast mountain sports. Not as full on as a waterproof jacket Dare 2b's Ilus Softshell fabrics are great at deflecting wind chill without the usual overheating problems that active users can face in traditional outerwear.

### 01/ Wind resistant

State of the art fine denier yarns are tightly woven to keep the wind out.

### 02/ Water repellency

Our fabrics are treated for stain and water resistance. Perfect for light rain conditions.

### 01/ Windproof membrane

State of the art fine denier yarns are tightly woven to keep the wind out.

### 02/ Water repellency

Our fabrics are treated for stain and water resistance. Perfect for light rain conditions.

### 03/ Lightweight

A finer yarn means a lighter, faster you.

Dare 2b Ared waterproof and breathable fabric technology offers a hierarchy of performance. Designed for a wide range of users, from experts to beginners. Ared fabrics at any level work to keep you dry, warm and comfortable on the slopes.

All Ared fabric have the following properties:

### 01/ Waterproof

Dare 2b's Ared fabrics are guaranteed to keep the wet out.

### 02/ Breathable

When you are active and working up a sweat Ared fabrics will ensure your body doesn't cool down from stale trapped sweat by allowing moisture to escape.

### 03/ Water Repellent

All jackets and overtrousers are treated with a water repellent finish so the water simply rolls off and won't retain moisture.

### 04/ Windproof

Once the wind rolls in a sunny day on the slopes can turn cold in a flash. Ared fabrics are designed to be windproof so you can't feel the chill.

### 01/ Waterproof

Dare 2b's Ared fabrics are guaranteed to keep the wet out.

### 02/ Breathable

When you are active and working up a sweat Ared fabrics will ensure your body doesn't cool down from stale trapped sweat by allowing moisture to escape.

### 04/ Windproof

Once the wind rolls in a sunny day on the slopes can turn cold in a flash. Ared fabrics are designed to be windproof so you can't feel the chill.

### 05/ Stretch

Some of our Ared fabrics also come with stretch whether that be in full or part stretch, we have strategically placed panels to ensure you never feel restricted.

For our most demanding users we offer our Ared V02 and Stretch products that provide you with superior performance outerwear. Designed for those who are at a level where any excess moisture or drop in core body temperature makes all the difference to your performance.

### 01/ Waterproof

Dare 2b's Ared fabrics are guaranteed to keep the wet out.

### 02/ Extra Breathable

Our Ared V02 10,000 and 20,000 fabrics offer extra breathability and comfort even in extreme wet weather conditions.

### 03/ Durable Water Repellent

A long lasting durable water repellent treatment is also adhered to our top fabrics to ensure liquids roll off the surface.

### 04/ Windproof

Once the wind rolls in a sunny day on the slopes can turn cold in a flash. Ared fabrics are designed to be windproof so you can't feel the chill.

### 05/ Stretch

Some of our Ared fabrics also come with stretch whether that be in full or part stretch, we have strategically placed panels to ensure you never feel restricted.
