FLEECE

Marmot's series of Fleece garments are an integral layering system designed specifically to work with the shell and softshell exterior layering garments.

POLARTEC® POWER DRY® HIGH EFFICIENCY™

POLARTEC® Power Dry® High Efficiency™ fabrics are designed to keep your skin dry when you sweat. All fabrics in this series feature a bi-component knit construction that uses different yarns on either side of the fabric. This creates two different surfaces: one that is optimized to move moisture away from the skin, the other to dry quickly.
