

ocùn®  
colchicum autumnale

## Made in rocks

Ocún [ots:un] is specialist for climbing harnesses, slings and crash pads. Climbing equipment with red blossom as a symbol gives its users certainty and brings joy from climbing. Thanks to precise elaboration, functionality, authenticity and pure design Ocún gained a lot of fans among climbing community. Ocún is successfully on the market more than 10 years. Company which besides climbing equipment Ocún produces also Rock Pillars climbing shoes has its headquarters and own manufacturing facilities in the Czech Republic. Today has around 100 dedicated employees out of which every single one is a master in his/her job. Harnesses, crash pads, quickdraw slings and other climbing equipment are being produced in atmosphere of high technology and deep user knowledge. Thanks to cooperation with our sponsored climbers, we bring innovation and set trends. Users of red blossom icon equipment are growing and can be found in 44 countries worldwide.

## TWIST TECH

Art. 00031

Sizes	Waist (cm)	Legs (cm)
XS - S	60 - 80	45 - 55
M - L	70 - 95	52 - 67
L - XXL	80 - 105	57 - 72

Weight: 460 g

EN 12277 Type C

Comfortable 3-buckle all-round harness. New shaping of individual parts and waist geometry bring well balanced body position. Padded sandwich construction on leg loops brings comfort on belays. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Thanks to Movable Waist System (MWS) – we can reduce full size-scale to 3 single sizes by centering the waist belt. Twist Tech is equipped with 3 slide-lock buckles made of stainless steel which are rust resistant. Harness has 4 full-size gear loops and haul-bag loop in the back part of the waist belt. All used materials are of superior quality and guarantee extreme durability of this harness.

- Fully padded waist
- New geometry for optimum weight-force distribution
- Fully padded, adjustable „D“ leg loops with wider padding
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Movable Waist System (MWS)
- Belay loop in different color
- 1 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 4 gear loops + full-strength haul loop in the back

## TWIST BASIC

Art. 00032

Sizes	Waist (cm)	Legs (cm)
XS - M	60 - 90	45 - 65
M - L	75 - 105	55 - 75

Weight: 440 g

EN 12277 Type C

All-round, light-weight climbing harness. Light weight 3-buckle all-round harness. Padded sandwich construction on leg loops brings comfort on belays. All used materials are of superior quality and guarantee extreme durability of the harness. Fully adjustable leg loops, removable at the back are matter-of-course. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Thanks to Movable Waist System (MWS) we can reduce full size-scale to 2 single sizes by centering the waist belt. Twist Basic is equipped with 3 slide-lock buckles made of stainless steel which are rust resistant.

- Fully padded waist
- Fully padded, adjustable „D“ leg loops
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Movable Waist System (MWS)
- Belay loop in different color
- 1 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 4 gear loops

## TWIST LADY

Art. 00030

Sizes	Waist (cm)	Legs (cm)
XS - M	55- 80	45 - 65
M - L	65 - 95	55 - 75

Weight: 420 g

EN 12277 Type C

Woman's version of a 3-buckle all-round harness with construction conformed to curves of women's figure. Padded sandwich construction on leg loops brings comfort on belays. All used materials are of superior quality and guarantee extreme durability of the harness. Fully adjustable leg loops, removable at the back are matter-of-course. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Thanks to Movable Waist System (MWS) we can reduce full size-scale to 2 single sizes by centering the waist belt. Twist Lady is equipped with 3 slide-lock buckles made of stainless steel which are rust resistant.

- Fully padded waist
- Fully padded, adjustable „D“ leg loops
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Movable Waist System (MWS)
- Belay loop in different color
- 1 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 4 gear loops

## MOJAVE

Art. 00020

EN 12277 Type C

Mojave is a light-weight 1-buckle sport climbing harness. Padded sandwich construction on leg loops brings sufficient comfort on belays. All used materials are of superior quality and guarantee extreme durability of the Mojave harness. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Belay loop in different color also eliminates this risk. Mojave is equipped with a slide-lock buckle made of stainless steel which is rust resistant.

- Fully padded waist
- Fully padded, adjustable „O“ leg loops
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Belay loop in different color
- 1 x 30 mm stainless steel Slide-Lock buckle
- 5 gear loops

Comfortable 4-buckle technical all-round harness. Main focus was brought on technicality and durability, for all those who need hard working harness. New shaping of individual parts and waist geometry bring well balanced body position. Padded sandwich construction on leg loops brings comfort on belays. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Quattro Tech is equipped with 4 slide-lock buckles made of stainless steel which are rust resistant. Harness has 6 full-size gear loops and haul-bag loop in the back part of the waist belt, as well as technical multipurpose gear holders on each side for e.g. ice screws. All used materials are of superior quality and guarantee extreme durability of this harness.

- Fully padded waist
- New geometry for optimum weight-force distribution
- Fully padded, adjustable „D“ leg loops with wider padding
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Belay loop in different color
- 2 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 6 gear loops + full-strength haul loop in the back

Quattro Basic is derived from the Twist line, having the same solid features. Light weight 4-buckle all-round harness. Padded sandwich construction on leg loops brings comfort on belays. All used materials are of superior quality and guarantee extreme durability of the harness. Fully adjustable leg loops, removable at the back are matter-of-course. Initial Safety System (ISS) is especially designed to keep leg loops stability and to prevent false rope-tie in any case. Quattro Basic is equipped with 4 slide-lock buckles made of stainless steel which are rust resistant. Full strength haul loop at the back part and ice screw holders on each side.

- Fully padded waist
- Fully padded, adjustable „D“ leg loops
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Belay loop in different color
- 2 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 4 gear loops + full-strength haul loop in the back

## NEWTON

Art. 00019

Sizes	Waist (cm)	Legs (cm)
One size	60 - 110	45 - 70

Weight: 435 g

EN 12277 Type C

Newton is a comfortable harness of a simple construction, which especially beginning climbers appreciate. Sandwich construction on leg loops brings sufficient comfort on belays. All used materials are of superior quality and guarantee extreme durability of the Newton harness. Leg loops are fully adjustable and removable at the back. Belay loop is in different color to prevent false rope-tie. Thanks to a unique Movable Waist System (MWS) – we can reduce full size-scale to 1 single size by centering the waist belt. Newton harness is equipped with a slide-lock buckles made of stainless steel which is rust resistant.

- Fully padded waist
- Fully padded, adjustable „D“ leg loops
- Movable Waist System (MWS)
- Belay loop in different color
- 3 x 30 mm stainless steel Slide-Lock buckle
- 2 gear loops

## COACH

Art. 00024

Coach is a webbing harness for all-round use. Its simple construction and versatility appreciate mostly beginning climbers and those who climb just casually. Who needs a versatile harness for casual indoor climbing, via ferratas and hiking, needs Coach.

- Webbing harness with adjustable „D“ leg loops
- 3 x 44 mm AL slide buckle
- Belay loop in different color
- 1 gear loop

Sizes	Waist (cm)	Legs (cm)
One size	40 - 125	40 - 70

Weight: 410 g

EN 12277 Type C

## GLACIER

Art. 00025

Climbing harness designed for ice climbing, ski touring and mountaineering.

- Webbing harness with adjustable „D“ leg loops
- Extended belay loop for freedom of movement
- You can put the harness on and off, wearing ski or crampons
- Belay loop in different color
- 1 x 44 mm AL slide buckle
- 5 gear loops

Sizes	Waist (cm)	Legs (cm)
M	70 - 90	50 - 65
L	80 - 100	60 - 70
XL	90 - 110	65 - 75

Weight: 330 g

EN 12277 Type C

## GYM

Art. 00026

Climbing harness purposed for rental or indoor training.

- Webbing harness with fully adjustable „D“ leg loops
- Initial Safety System (ISS) – safety joint system of leg loops and waist
- 3 x 44 mm safe AL click buckle
- Belay loop in different color
- 1 movable gear loop

Sizes	Waist (cm)	Legs (cm)
One size	45 - 125	45 - 80

Weight: 435 g

EN 12277 Type C

## VARIANT

Art. 00027

Anatomically shaped chest harness.

- 44 mm webbing
- Adjustable
- Comfortable „X“ construction
- 2 x 44 mm click buckle
- 2 gear loops
- EN 12277 Type C
- Size: One

**Weight: 308****EN 12277 Type D**

## BODYGUARD

Art. 00028

Full-body climbing harness intended for beginners and climbing on via ferratas.

- Fully adjustable
- 2 x 44 mm AL click buckle on chest
- 2 x 44 mm AL Click buckle on leg loops
- 2 gear loops

Sizes	Waist (cm)	Legs (cm)
One size	65 - 115	50 - 80

**Weight: 530 g****EN 12277 Type A**

## MOJO

Art. 00029

Full-body harness for children.

Sizes	Waist (cm)	Legs (cm)
One size	30 - 55	23 - 50

**Weight: 359 g****EN 12277 Type A**

## TWISTER KID

Art. 00023

All-round climbing harness, purposed for children or for extra small sizes.

- Fully padded waist
- Fully padded, adjustable „D“ leg loops
- Initial Safety System (ISS) - safety joint system of leg loops and waist
- Movable Waist System (MWS)
- Belay loop in different color
- 1 x 30 mm stainless steel Slide-Lock buckle
- 2 x 20 mm stainless steel Slide-Lock buckle
- 2 gear loops

Sizes	Waist (cm)	Legs (cm)
One size	50 - 75	40 - 50

- Length: 110 cm
- Stretch webbing arms
- Safety keylock carabiners
- New lightweight brake

Weight: 490 g

EN 958

## RIP 'N' STOP

NEW

Art. 00000

- Tear webbing fall absorber
- Palm key-lock carabiners
- Stretch webbing arms 50 – 90 cm
- Polyester case securing fall absorber
- Center loop for belay purposes

Weight 490 g

EN 958

## GURU 9,8

Art. 00000

- Diameter 9,8 mm
- Number of falls (80 kg): 9
- Impact force: 7,6 kN
- Length: 50 m, 60 m, 70 m, 80 m

Weight 64 g/m

EN 892

## MYSTIC 10,5

Art. 00149

- Diameter 10,5 mm
- Number of falls (80 kg): 9
- Impact force: 8,1 kN
- 200 m spool

Weight: 72 g/m

EN 892

## PADDY DREAMTIME

Art. 00053

Dreamtime is a crash pad purposed for the most demanding boulderers. It covers 2 sqm of the ground so there is no space for any fear of fall. Thanks to its size it is the best outdoor double-bed you can imagine. Taco style with tarpaulin Plastel lay over brings the possibility of carrying your stuff without getting it soaked.

- Two time taco style folding
- Rounded corners
- Durable PES cover
- Rucksack carrying straps
- 50 x 30 cm starter carpet
- 2 x rubber molded handles
- 3 x aluminium buckle
- Open size - 200 x 100 x 10 cm

**Weight: 7,9 kg**

## PADDY DOMINATOR

Art. 00052

Dominator is the real dominator among all crash pads. Best choice for top-level bouldering and demanding high balls. Suitable also for comfortable sleeping.

- Parallel folding
- Rounded corners
- Durable PES cover
- Rucksack and shoulder carrying straps
- 50 x 30 cm starter carpet
- 2 x rubber molded handles
- 2 x aluminium logo buckle
- Open size (2 ways) - 132 x 100 x 12,5 cm, 200 x 66 x 12,5 cm

**Weight: 6,6 kg**

## PADDY MOONWALK

Art. 00051

All-round crash pad suitable for all kinds of bouldering as well as comfortable sleeping.

- Parallel folding
- Rounded corners
- Durable PES cover
- Rucksack and shoulder carrying straps
- 50 x 30 cm starter carpet
- 2 x rubber molded handles
- 2 x aluminium logo buckle
- Open size (2 ways) - 132 x 100 x 10 cm, 200 x 66 x 10 cm

**Weight: 5,5 kg**
