HYDRATION & FILTRATION

HYDRATION EVOLVED...TO PERFECTION

Platypus products put the finest taste-free solutions to on-the-go hydration at your fingertips so you can savor the end of your day as much as the beginning. To ensure it, we've spent thousands of hours putting our materials and technologies through rigorous testing and miles of field use. The result is more than just reliable, innovative, hydration—it's hydration evolved... to perfection.

WHAT'S NEW

Hydration Packs Completely new, these packs bring focused, activity-specific features and lightweight designs to a range of pedal- and foot-powered adventures.

GravityWorks™ 2.0L We're bringing the power of gravity filtration to the minimalist crowd with a more compact, adaptable and trail-friendly system.

GRAVITY FILTRATION

GravityWorks™ Filtration Systems combine the efficiency of pump-free, gravity-powered water filtration with light and compact storage solutions. They take the hassle out of getting clean water on any journey and they do it with less effort, and in less time, than any other backcountry filtration system.

The GravityWorks Advantage

Collect

Easily collect water in even the most challenging situations.

Filter

Pump-free filtering of up to 4 liters of water in just 2.75 minutes.

Individually Tested

Every filter meets NSF and EPA standards for the removal of protozoa and bacteria.

Transport

Store and transport up to 8 liters.

Dispense

Dispense on-demand for cooking, cleaning and more.

GRAVITYWORKS™ 2.0L FILTER SYSTEMS

Our newest GravityWorks system brings the speed of hollow-fiber filtration to a compact and ultralight 2.0-liter version that's ideal for those looking to travel fast and light. Two systems cater to the need of any customer, whether they use hydration systems, or standard water bottle-based hydration.
