Singing Rock is climbing

SINGING ROCK was founded in 1992. During 20 years of its existence Singing Rock has established itself as a professional and innovative producer and supplier of climbing equipment. Nowadays Singing Rock is one of the world leaders on the market of the climbing equipment.

Most of our staff are climbers, alpinists or backcountry skiers. "Crazy cools" with ice axes, haul bags, skis and crampons. The Singing Rock Climbing Team has climbed hundreds of kilometres, as well as fallen down hundreds of times. Supported by a team of top climbers and mountaineers, we are able to test and improve our products, developing functional as well as a high

quality climbing equipment. Felipe Camargo, Carlos Logrono, Dušan Janák, Dejan Koren, Stráníci brothers, Luboš Mázi, Jitka Mázlová, Czech mountain guides and others help us to test and improve every product which is coming from our factory. SINGING ROCK is always coming with new and original solutions on the market. For the first time in its history is introducing new "Ice Line" - products intended for mountaineering and ice climbing. These new products are just a start point and will be extended very soon with other tools for climbers who love ice and snow.

SINGING ROCK is also becoming more aware about the environmental impact of

our production and products. We have committed to use more eco-friendly materials which have less impact on the environment. Products are produced from green raw materials and the team of Singing Rock is engaged to clean up rock areas and give conscience to future climber generation to preserve our planet. Organic cotton, organic bamboo or 100 % biodegradable bags are just the examples of our green steps towards a sustainable future. SINGING ROCK is committed to bring you high quality and highly-functional equipment with minimal impact on the environment.

SINGING ROCK STAFF

BANDIT VERSATILE ICE AXE FOR TECHNICAL MOUNTAINEERING AND ICE CLIMBING

HARDENED STEEL HAMMER EASILY REMOVABLE OR REPLACEABLE WITH ADZE

ERGONOMIC HEAD WITH OPTIMALLY BALANCED WEIGHT FOR A PERFECT SWING AND PLACEMENT

HEAD CARABINER HOLE IS BIG ENOUGH TO PLACE ANY CARABINER ON THE MARKET

HARDENED STEEL REPLACEABLE ICE OR DRY PICK

CURVED SHAPE ENABLES COMFORTABLE CLIMBING IN A STEEP TERRAIN

REMOVABLE HOOK RHINO FOR HIGHER GRIP

ERGONOMIC AND ANTI-SLIP HANDLE FROM DUAL-DENSITY PLASTIC FOR THE PERFECT GRIP

HOLE FOR CARABINER OR BUNGEE TETHER

REMOVABLE BOXER FINGER PROTECTOR FOR COMFORTABLE LEASHLESS CLIMBING

RK003 – with hammer

RK004 – with adze

BANDIT

Versatile ice axe for a wide range of use. Given its modular design, the ice axe can be adapted to a particular ascent. Especially suitable for demanding technical mountaineering and ice climbing.

- Bent shaft makes hooking in steep ice or rock easy while creating an optimum grip angle.
- Hot forged head allows use of adze/hammer and choice of ice/dry pick. For demanding mixed climbing, the ice axe can be used without adze/hammer.
- Head shape is designed so that it can be jammed into the cracks and to provide support for climbing in soft snow. The weight of the head is concentrated in the trajectory of the swing making penetration into hard ice as easy as possible. Possible to connect a carabiner to the head.
- Ergonomically shaped handle is made of dual-density plastic for thermal insulation and safe grip. A carabiner or "Bungee" tether may be attached to the spike.
- "Boxer" protects fingers against injury and getting drenched and enables leashless climbing. "Rhino" hook is designed for higher grip in demanding ice/mixed climbing or, in contrast, in climbing snow slopes. You may remove both accessories and get a light ice axe for classic technical mountaineering.

Weight of fully mounted ice axe (ice pick, hammer/adze, Boxer, Rhino): 630 g
Length: 50 cm

Material:

Pick – chromoly steel

Head, spike, shaft – aluminium alloy

Grip – dual-density plastic

CE 1015 ■ EN 13089

Ice/dry pick type 2 (T)

Shaft type 2 (T)

singing rock

RK007 MERLIN

Light ice axe designed for glacier tours and easy snow ascents in the mountains.

- Classic straight shaft is made of high-quality 7075-class aluminium alloy.
- Pick is made of durable chromoly steel and it easily penetrates even hard snow or alpine ice.
- Adze is designed for easy cutting of steps or snow platforms.
- Ice axe head ergonomically shaped especially for holding when walking.
- Holes in the head as well as in the spike are big enough for attaching a carabiner.
- Leash "Fix" included.

Weight: 430 - 480 g (15,17 - 16,93 oz)
Length: 58, 65, 72 cm

CE 1015 ■ EN 13089
Shaft type 1 (B)

RK111 FIX

Simple leash with minimal weight for MERLIN and WIZARD ice axes.
Strength: 200 kg (2 kN)
Weight: 27g
Material: Polyamide

RK005 WIZARD

Light ice axe designed for traditional alpine mountaineering.

- Curved shaft under the head makes climbing in icy or mixed terrain easier while the bottom straight part easily penetrates snow. The shaft is made of high-quality 7075-class aluminium alloy. The bottom part includes an anti-slip grip.
- Pick is made of durable chromoly steel and it easily penetrates even hard snow or alpine ice.
- Adze is designed for easy cutting of steps or snow platforms.
- The ice axe head is ergonomically shaped and makes self-arrest manoeuvre easier.
- Holes in the head as well as in the spike are big enough for attaching a carabiner.
- Leash "Fix" included.

Weight: 420 - 470 (14,82 - 16,58 oz)
Length: 55, 62, 69 cm

CE 1015 ■ EN13089
Shaft type 1 (B)

RK006 WIZARD LIGHT

Our lightest ice axe designed especially for ski touring, altitude climbing and all adventures where every gram counts.

- A lighter version of the Wizard ice axe.
- Without steel spike.
- The bottom part of the shaft is sealed against snow and equipped with a hole for attaching a carabiner.
- "Fix" and "Bungee" leashes compatible.

Weight: 390, 415 g (13,76 - 14,64 oz)
Length: 52, 59 cm

CE 1015 ■ EN 13089
Shaft type 1 (B)

RK112 BUNGEE

A lightweight tether for leashless climbing. Bungee attaches ice tools to the harness which makes the loss of the tool impossible.

- V-shaped elastic webbing is short enough for tangle-free handling and may be stretched for maximum reach.
- length of the lanyards can be extended up to 136 cm incl. carabiners
- colour demarked lanyards for better orientation
- two mini screw lock carabiners attached to the tool's spike or head.

Strength: 300 kg
Gate opening (d): 14 mm
Weight: 94 g /3,32 oz/
Length: 64 cm incl. carabiners
Material: 85% PAD, 0,5% PES, 14,5 % elastic fibre-carabiner: light alloy

RK20200S**
FAKIR / Semi-classic

RK20200T**
FAKIR / Tech

FAKIR

All-round twelve-point crampons for classic mountaineering. Designed for all terrain from glacier tours to steep snow slopes or classic ice couloirs.

- Asymmetrical shape of crampons ideally adapts to the boot and the front points thus providing maximum efficiency in steep terrain.
- The frame is made of high-quality chromoly steel.
- The crampons designed in three fastening systems and are therefore suitable for softer trekking boots - as well as rigid mountaineering boots.
- The size may be adjusted without any tool.
- "Bouncer" anti snow plates included.

Weight:

FAKIR / C: 920 g (32,45 oz)

FAKIR / S: 980 g (34,57)

FAKIR / T: 975 g (34,39 oz)

Size: 39-47

LUCIFER / Semi-classic

RK20300T**
LUCIFER / Tech

LUCIFER

Versatile crampons with replaceable front points. Designed for climbing on steep ice, frozen waterfalls and difficult mixed routes.

- Modular construction allows use of crampons with mono or dual front points.
- Mono point is placed under the big toe and the asymmetrical shape of crampon ideally adapts to the boot and the front points thus providing maximum efficiency in a steep terrain.
- Points and frame are made of hardened chromoly steel.

- The crampons are delivered with two fastening systems for rigid mountaineering boots.
- The size may be adjusted without any tool.
- "Bouncer" anti snow plates included.

Weight:

LUCIFER / S: 1110 g (39,15 oz)
(with mono point 1045g (36,9 oz)

LUCIFER / T: 1105 g (39 oz)
(with mono point 1040g (36,7 oz))

Size: 39-47

CRUX

Ultralight high-performance climbing harness designed for sport routes or wherever you want to climb light.

- innovated lightweight construction of the waist belt and leg loops provides maximum support and comfort
- 1 patented Rock&Lock buckle on the waist belt for fast and safe adjustment
- tie-in points which have the most abrasive wear are reinforced by PAD webbing
- perforated EVA foam inside the waist belt and leg loops with holes 5mm in diameter increases the breathability of the harness
- padded waist belt and leg loops made from breathable PES fabric with high abrasion resistance
- inside mesh dissipate moisture and dries quickly in a wet conditions
- laced technical textile increasing the waist belt rigidity and abrasion resistance
- 4 braided gear loops with a load capacity 5 kg
- colour belay loop for proper tie-in/attachment point, strength 15 kN
- fixed bridge between the leg loops provides a higher safety in case of wrong tie-in
- ergonomic and simple design
- BMI adjusting system for perfect fit when changing the layers or weight

Size: XS, S, M, L, XL

Weight: 324 g [11.43 oz] (size M)

VERSA

Multi-purpose and universal harness for all kind of climbing activities suitable mainly for beginners, climbing courses and gyms.

- comes in two sizes which adapts to all users shapes
- construction of the harness is a junction of favorite ATTACK and nowadays innovated sport collection
- adjustable leg loops with innovated patented Rock&Lock buckles for fast and safe adjustment.
- 3 Rock&Lock buckles enable to put on the harness when wearing skis or crampons
- construction of the waist belt and leg loops provides maximum support and comfort when hanging in the harness
- longer BMI adjusting system for better size variability
- velcro strap in a rear area enables to adjust and centre the harness, keeping the gear loops in a optimal position
- tie-in points which have the most abrasive wear are reinforced by PAD webbing
- perforated EVA foam inside the waist belt and leg loops with holes 5mm in diameter increases the breathability of the harness
- inside mesh dissipate moisture and dries quickly in a wet conditions
- laced technical textile increasing the waist belt rigidity and abrasion resistance

- 4 braided gear loops with a load capacity 5 kg,
- colour belay loop for proper tie-in/attachment point, strength 15 kN
- fixed bridge between the leg loops provides a higher safety in case of wrong tie-in
- 2 slots for additional carabiner PORTER

EASY GO LOCK II.

Energy absorber for via ferrata routes, ropes courses and adventure parks with the palm key lock carabiners

- tearing webbing energy absorber stored in velcro cover
- tearing webbing is protected against the abrasion and is easy to inspect
- twisted loop for an easy attachment to the harness
- maximum elongation of energy absorber when activated 115 cm
- elastic lanyards length: 50 cm, extended length: 90cm
- colour distinction between the lanyards for easy manipulation and avoiding the twisting
- central eye with the strength 9 kN for resting and belaying
- new innovated design and smaller dimensions

Recommended use:

- via ferrata
 - ropes courses and adventure parks
- Carabiner type „K“ according EN 12275
Weight: 456 g (16,09 oz.)
(incl. carabiners)

€€ 1019 ■ EN 958

FIRST AID BAG - LARGE

(without the content)

- ideal for all of those who wish to choose their own content
 - bright colour increases the visibility in a bad weather or inside the backpack
 - big attachment loop
 - insert compartments in different sizes
 - zipped big mesh pocket
 - inside buckle with the emergency whistle
 - high-durable material for the use in demanding conditions.
- measurements: 22 x 18 x 5 cm
material: polyamid, polyester
weight: 189 g

COMIC CHALK BAG

A large chalk bag with ergonomic shape and unique printing design.

- Ergonomic shape and enough volume for chalking of the whole hand.
- Soft and pleasant to touch corduroy outer fabric. Fleece lining inside.
- Dustproof closing system.
- Wide elastic brush holder for more comfort when cleaning holds.
- Double loops for stable attachment to the waist belt.
- Smaller version for ladies. With pink lace-webbing.

C0064BY15

SLACKLINE 15 m

Slackline set 15m is ideal for the beginners and allrounders. Also suitable for the schools, climbing gyms or special training purposes.

- superlight 2 colours webbing with the strength 3 tones and width 25 mm has excellent qualities
- fast assembly with the ratchet
- anchoring around the solid anchor with the slings and smart Rock&Lock buckles
- slackline set is made as simple as possible that even a beginner can assemble it easily

Width of webbing: 25mm (0,98 in)

Material: low stretch PES

Strength: 3t

Slackline Set 15 m includes:

- 2 anchoring slings with Rock&Lock buckles and sewed eyes
- 15m slackline webbing with sewed eye.
- 1 ratchet
- Transport bag

C0064BY25

SLACKLINE 25 m

Slackline set 25 m is ideal for the advanced slackliners.

- superlight 2 colours webbing with the strength 3 tones and width 25 mm has excellent qualities
- tension made by multi-pull system

Width of webbing: 25mm (0,98 in)

Material: low stretch PES

Strength: 3t

Slackline Set 25 m includes:

- 25 m slackline webbing with sewed eye.
- 2 anchor slings
- 1 accessory sling for multi-pull system
- 1 sheckle
- 2 Oval Steel connectors / screw
- 1 lock pin
- 2 o-rings
- Transport bag

C0066XX00

JIBLINE

Inovated webbing intended for the best tricks on the jibline

- graphic coating with high abrasion resistance
- anchoring with the ratchet and shackle helps to avoid the twisting of webbing
- big ratchet for easy assembly

Width of webbing: 50mm (1,96 in)

Material: low stretch PES

Strength: 3 t

Jibline Set 20 m includes:

- 20 m of Jibline webbing
- 2 sheckles
- 1 big ratchet

SCARF

Multifunctional scarf 8 in 1 with a wide variety of uses for your protection against wind and cold.

- can be used as a balaclava, cap, masc, scarf, beanie, shawl, ear warmer, etc.
- 5 different designs to fit all users' styles
- made from elastic high-tech 100% polyester microfibre fabric that keeps its shape well, as well as being breathable, warm, soft, lightweight, of a very high quality and antibacterial.
- machine washable at 30 °C, cannot be tumble dried, air dry very quickly
